PROFESSIONAL PROFILE

Graphic Designer and Frontend Developer with a university background in Graphic Design and Multimedia. Experienced in visual identity, graphic communication, institutional design pieces, 3D modeling, websites, WordPress, and responsive projects. Specialized in Mobile-First design, on-page SEO, web accessibility (WCAG), UX/UI, and optimization. Focused on creating functional, consistent, and measurable visual and digital solutions.

ACADEMIC BACKGROUND

Bachelor's Degree in Graphic Design and Multimedia

Universidad de la Cuenca del Plata — 2018 - 2021

Frontend Developer

Coderhouse — 2025 | HTML, CSS, JavaScript, React.js, Bootstrap, Tailwind

PROFESSIONAL EXPERIENCE

Lead Graphic Designer – Municipalidad de Mercedes

January 2023 – February 2026

- Implemented and optimized the institutional WordPress website following WCAG and Mobile-First criteria.
- Improved technical SEO, loading speed, and advanced plugin configuration.
- Developed institutional visual communication for print, web, and internal training.
- Improved technical SEO, plugins, and visual communication for web, print, and internal training.

Web and Graphic Designer – Easy Life Marketing

October 2022 – January 2023

- Designed and built more than 120 landing pages and responsive websites, including selected e-commerce projects.
- Optimized structure, on-page SEO, and performance in Elementor, Divi, and Breakdance.
- Designed visual identities and digital pieces for marketing campaigns.

UX/UI Designer – SynergIT

January 2022 – August 2022

- Designed 10 screens and 2 main flows for responsive web prototypes.
- Developed user-centered wireframes and high-fidelity prototypes.
- Coordinated with the development team to ensure visual consistency, UI control, and improved usability.

Freelance

June 2021 - Present

- Designed flyers, logos, vehicle wraps, brand manuals, signage, editorial pieces, and digital interfaces.
- Developed responsive websites using HTML, CSS, React.js, and Tailwind CSS: landing pages, invitations, and web MVPs.
- Created 3D modeling, rendering, and visual quality control for graphic and digital projects.
- Current project: CRM + landing page for Fredy Publicidad, with a responsive approach.
