PROFESSIONAL PROFILE

Passionate about transforming ideas into visual solutions, I have experience as a UX/UI Designer and Web Developer, as well as advanced studies in Graphic Design at Universidad de la Cuenca del Plata.

I am a self-taught professional who is constantly studying and learning new technologies, adapting to change, and using artificial intelligence as an additional tool.

ACADEMIC BACKGROUND

Bachelor's Degree in Graphic Design and Multimedia

Universidad de la Cuenca del Plata — 2018 - 2021

MERN Full Stack Developer

Coderhouse — 2025

PROFESSIONAL EXPERIENCE

Graphic Designer – Municipalidad de Mercedes

November 2024 – Present

- Implemented and optimized the institutional website developed in WordPress, following WCAG accessibility standards and Mobile-First principles.
- Improved SEO, website loading speed, and advanced plugin configuration.
- Developed institutional visual communication materials for print, web, and internal training.

Designer / Web Developer – Easy Life Marketing

July 2022 – January 2023

- Developed responsive landing pages and websites, including selected e-commerce projects for the company's clients.
- Optimized website structure, on-page SEO, and performance using Elementor, Divi, and Breakdance.
- Designed visual identities and digital marketing materials.

UX/UI Designer – SynergIT

January 2022 – August 2022

- Designed key screens and user flows in Figma, applying information architecture, visual hierarchy, responsive design, and component consistency principles.
- Developed wireframes and high-fidelity prototypes focused on user experience, considering navigation, interaction, usability, and visual structure.
- Coordinated with the development team to ensure the correct implementation of the interface, UI component consistency, visual quality, and usability improvements.
